

Figures of Speech Project

After reading the first three chapters of *The Pearl*, we learn that John Steinbeck uses a wide variety of imagery (metaphors, similes, personifications and colorful verbs).

You will locate and place in quotes **3 metaphors, 3 similes, 3 personifications and 3 colorful verbs** from the text. Following each quote, you will **explain in one to two sentences** what John Steinbeck is trying to compare in each of his figures of speech. (When you write your explanations, look for what the two things have in common.)

You will word process your 12 quotes and their explanations.
